connectors

The HALO Series Super-LED Hide-A-Way System, with front park/turn or rear brake/tail/turn signaling functions. Unique LED plug-in module replaces the front or rear OEM bulbs in 2006 Crown Victoria's. Adds a demanding flashing warning signal to the front or rear of the vehicle. Patent Pending.

FEATURES

- Certified Super-LED park/turn and/or brake/tail/turn signals with built-in warning available for the front and rear of 2006 Crown Victoria police vehicles.
- Lamp assembly is easy to install, requires no additional holes to be drilled or removal of the headlight which may compromise the housing or Federal Certification requirements. Replaces OEM incandescent park/turn and brake/tail/turn bulb. Direct Plug-in.
- Provides Scan-Lock® multiple flash patterns.
- Available in amber, blue, white or red safety colors for proper emergency color identification.
- Built "Whelen-tough" to take road pounding punishment.
- Conformal coated for moisture and vibration resistance, long-life performance.
- Front system includes two lamp assemblies, Hide-A-Way front flasher module with bracket, cabling and Deutsch® water-resistant connectors.
- Rear system includes two or four lamp assemblies, Hide-A-Way rear flasher module, cabling and Deutsch® water-resistant connectors.
- Requires customer supplied On/Off switch.
- Field replaceable LED assembly is warranted for five years.

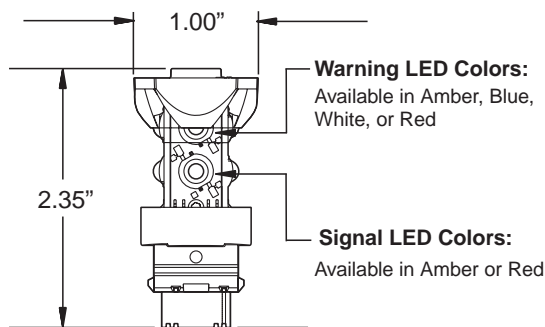

Form# HALO0806
